COOL TO THE TOUCH PAVERS

FOR DECKS, DOCKS, PATIOS & ROOFTOPS

ECOPAVR.COM

About ECOPAVR®

ECOPAVR® is the next generation of sustainable concrete paver technology built for high-heat environments like decks, docks, patios, and rooftops. With a cool to the touch surface that reduces heat absorption, **ECOPAVR®** offers safer, more comfortable footing while meeting modern safety and sustainability standards.

COOLING TECHNOLOGY

Up to 40°F cooler than standard pavers for added outdoor comfort.

REINFORCED DURABILITY

Engineered with reinforcing for strength, slip resistance, and all-weather durability.

VERSATILE COMPATIBILITY

Compatible with grid systems, pedestal setups, and sand base paver installs.

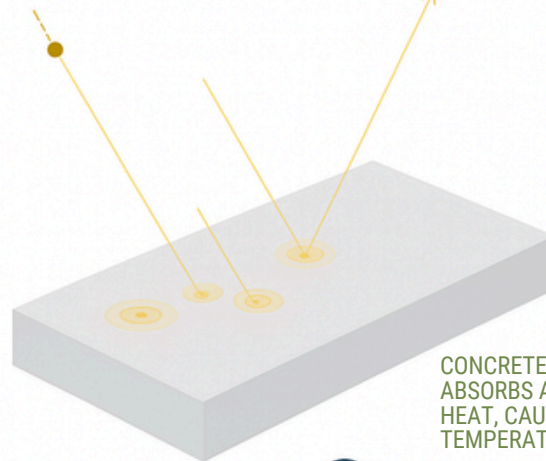

ENERGY COST SAVINGS

ECOPAVR® reduces surface heat, delivering up to **10-20% energy savings** in rooftop applications.

How ECOPAVR® Works

THE SUN'S RADIATION AND HEAT HIT THE PAVER SURFACE.

STANDARD CONCRETE PAVER RELEASES HEAT SLOWLY.

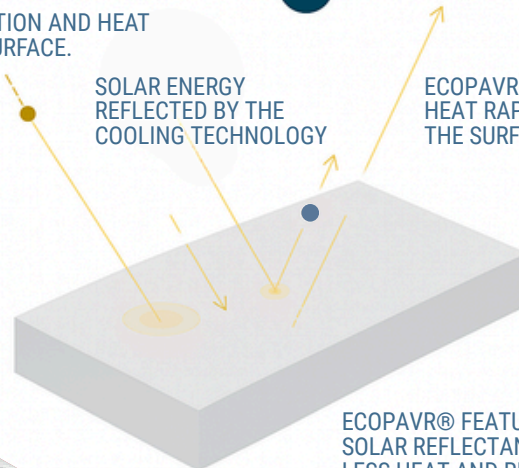

CONCRETE PAVER ABSORBS AND RETAINS HEAT, CAUSING TEMPERATURE TO RISE.

VS

THE SUN'S RADIATION AND HEAT HIT THE PAVER SURFACE.

SOLAR ENERGY REFLECTED BY THE COOLING TECHNOLOGY

ECOPAVR® RELEASES HEAT RAPIDLY TO COOL THE SURFACE.

ECOPAVR® FEATURES IMPROVED SOLAR REFLECTANCE, ABSORBING LESS HEAT AND REDUCING SURFACE TEMPERATURES.

Testing Results

- Stays up to **40°F cooler** than standard concrete pavers.
- Slip Resistance (DCOF) rating: **0.56** (Elevations Series)
- Solar Reflectance Index (SRI): **96** — Elevations Paver in Vail
 - Among the **highest reflectivity ratings** in the industry.
- Delivers up to **20% energy savings** in rooftop applications.
- Strength: **5000 psi**

Results are based on third-party standard concrete testing procedures, including Freeze/Thaw, Air Entrainment, Compressive Strength, Water Absorption, Solar Reflectance Index (SRI), and Dynamic Coefficient of Friction (DCOF) testing.

SOLAR REFLECTANCE INDEX (SRI): 96

Among the highest reflectivity ratings in the industry.

Elevations Paver

The **Elevations Series**, the first paver in the **ECOPAVR®** collection, showcases beautiful pavers inspired by mountain terrain. Its subtle texture and durable design bring refined, natural beauty to patios and outdoor spaces.

APPLICATIONS

Color Options

Vail White

El Capitan Gray

Camelback Brown

Product Details

- Size: 23⁷/₈" L x 23⁷/₈" W x 1³/₄" H
- Weight: 80 lbs each
- Wire Mesh & Fiber Reinforced
- Pallet Quantity: 32/pallet

Harbor Grain Paver

The **Harbor Grain Series** features a realistic woodgrain texture inspired by weathered dock boards and coastal environments. This **ECOPAVR®** has a naturally worn appearance that brings warmth and character to docks, decks, patios, and waterfront spaces.

Color Options

Saltwash White

Driftwood Gray

Boardwalk Brown

APPLICATIONS

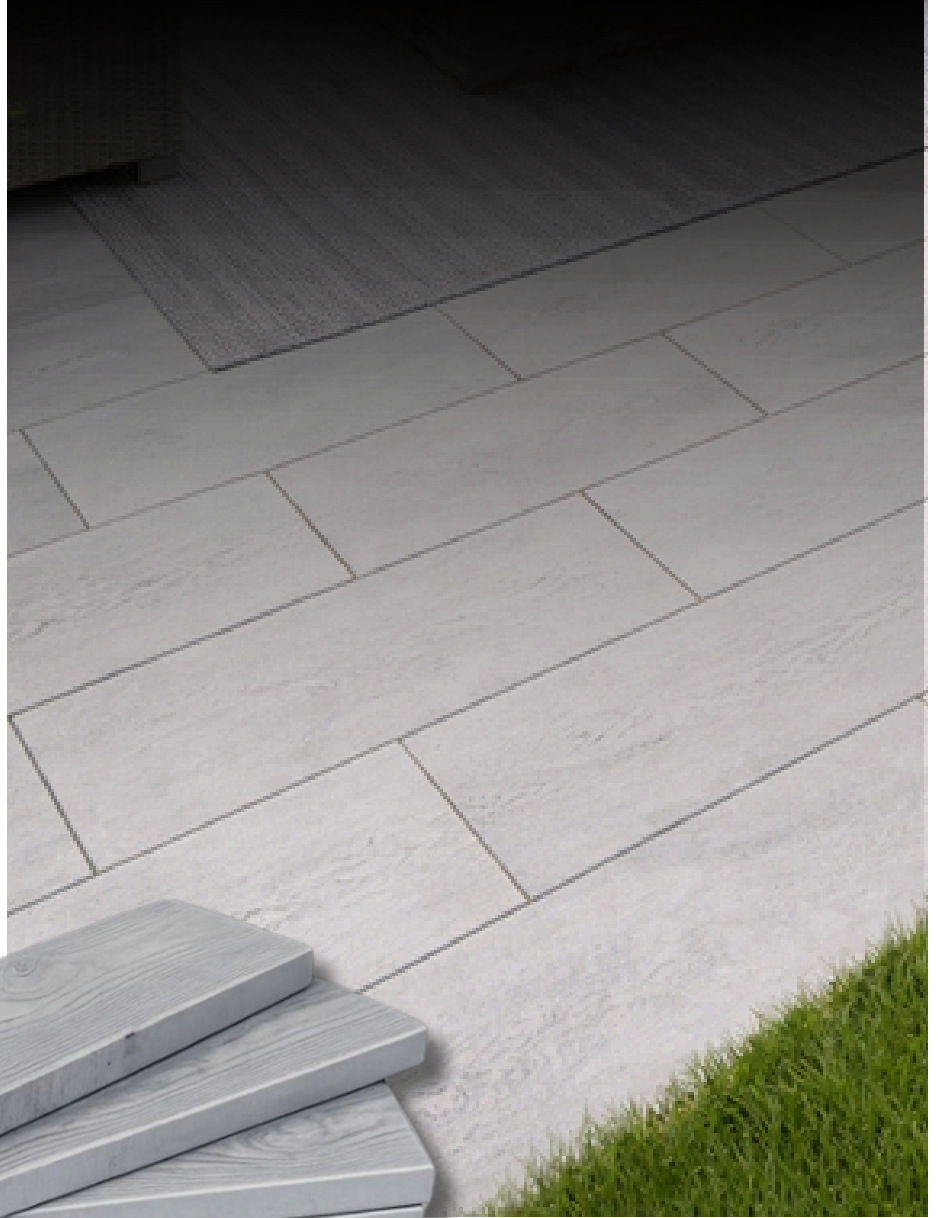

Product Details

- Size: $23\frac{7}{8}$ " L x $23\frac{7}{8}$ " W x $1\frac{3}{4}$ " H
- Weight: 80 lbs each
- Wire Mesh & Fiber Reinforced
- Pallet Quantity: 32/pallet

Barnwood Plank Paver

The **Barnwood Plank Series** captures the natural character of aged wood with the strength and durability of concrete. Featuring authentic grain texture and a long-plank format, this **ECOPAVR®** delivers a warm, rustic look ideal for patios, walkways, and outdoor living spaces.

APPLICATIONS

Color Options

White

Gray

Brown

Product Details

- Size: 24" L x 8" W x 1³/₄" H
- Weight: 27 lbs each
- Fiber Reinforced
- Pallet Quantity: 75 sqft
Includes 60/pallet

Rundle Paver

The **Rundle Series** captures the look of natural stone in a durable, low-maintenance concrete design. Featuring subtle texture, earthy color variation, and a modular format, it's ideal for patios, walkways, and landscape applications.

Color Options

White

Gray

Brown

APPLICATIONS

Product Details

- Size: 12" L x 12" W x 1 1/2" & 12" L x 24" W x 1 1/2" H
- Fiber Reinforced
- Pallet Quantity: 72 sq ft
Includes 24 12"x12" & 24 12" x 24"
